Vision & Mission Statement for “Copyright Free” Bible Colleges

The following points state and clarify the need, vision and mission of “Copyright Free” Bible Colleges.

1. The need has been assessed for ministers in „target areas“ of many under-developed countries for on-site training within their community or area. This will allow them to remain with their families and congregations, maintain in some cases some employment for support of the family. They will be able to immediately apply the information and conceptual paradigms learned in classes provided by an on-site Bible College.
2. By experience, the need has been established to minimize the expense of providing effective Bible College and ministry training for Christian ministers within these areas by providing reproducible quality curriculum „master“ materials at no expense to the recipient, either in print or digitally.
3. Study of current and effective missions“ paradigms has demonstrated the cost and quality effectiveness of Associate Degree, Diploma and Continuing Education Certificate Bible College programs (as opposed to Bachelor or higher degrees) in target areas.

4. Removing the disciple from his or her field of ministry experience for ministry training in another region or even in another country has proved to be disadvantageous to the current ministry, family dynamics, personal financial resources, practical ministry experience and general welfare of the minister's life.

5. For the sake of efficiency, economy, effectiveness and excellence in providing quality Bible College and Ministry training for ministers in the harvest field, the Associate Degree, Diploma and Certificate programs for on-site Bible and ministry training utilizing "copyright-free," quality books and supporting documents should be provided for as low a cost as possible. 6. These materials have been established and are presently being reproduced, especially in financially challenged, remote or isolated regions, where the gospel of Jesus Christ needs to penetrate in this final age prior to the return of Jesus Christ.
